

EKENE GODWIN OKECHUKWU

Frontend Developer & UI Engineer

kenesongodwin@gmail.com • +234 815 821 2395 • Lagos, Nigeria • github.com/GodwinOkechukwu

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 5+ years of experience designing and delivering scalable, high-performance web applications across fintech, edtech, logistics, and real estate sectors. Adept at translating complex Figma and UX designs into pixel-perfect, accessible interfaces using React.js and Next.js. Proven track record of collaborating with cross-functional teams to ship products that are fast, reliable, and user-centric. Passionate about clean code, modern design systems, and building solutions that create real-world impact.

CORE SKILLS

Frontend Development: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Styling & UI/UX: Tailwind CSS, Framer Motion, Responsive Design, Cross-browser Compatibility

State Management: Redux, Redux Toolkit

Real-time & APIs: WebSockets, REST API Integration

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Elementor

Workflow & Collaboration: Git, Agile/Scrum, Remote & Distributed Team Collaboration

PROFESSIONAL EXPERIENCE

Frontend Engineer | [Transalliance Holdings](#), Victoria Island, Lagos *Jan 2026 – Present*

- Develop and maintain responsive, high-performance web interfaces for a leading logistics and supply chain organization with pan-African operations.
- Collaborate closely with product designers and backend engineers to implement modern UI components and ensure seamless API integration.
- Champion frontend best practices including component reusability, performance optimization, and accessibility compliance across all digital products.
- Lead implementation of scalable design systems and contribute to technical architecture decisions to improve development velocity.

Frontend Developer | [Next Gen Digital Technology](#), Lagos, Nigeria *Jan 2020 – Dec 2025*

Key Projects Delivered:

Lynspeed — All-in-One JAMB Prep Platform (*React, TypeScript, Tailwind CSS, Redux*)

- Architected a comprehensive e-learning platform serving 1,000+ active students, combining JAMB preparation, career guidance, and practical skill development.
- Built secure authentication flows, exam simulation engines, and modular component libraries comprising 60+ reusable components.
- Optimized performance and SEO to ensure fast load times and high discoverability across low-bandwidth Nigerian networks.

Naijaville — Smart Rental Marketplace (*Next.js, TypeScript, WebSockets, Redux Toolkit*)

- Developed a full-cycle rental platform enabling users to discover properties, schedule virtual tours, sign digital agreements, and complete payments in one seamless flow.
- Integrated WebSockets for real-time notifications and live chat between landlords and tenants, significantly improving engagement.
- Achieved a 40% improvement in page load speed through code splitting, lazy loading, and Next.js server-side rendering optimizations.

Payina — Fintech Application (*React.js, Vite, Tailwind CSS, Redux*)

- Built a secure, responsive digital finance platform enabling users to manage money, execute seamless transactions, and access personalized financial solutions.
- Implemented robust state management with Redux and optimized the application to achieve a 98 Lighthouse performance score.
- Ensured strict adherence to security best practices and cross-device compatibility across mobile and desktop environments.

Miala — Logistics & Delivery Platform

- Delivered a logistics platform with real-time package tracking, intuitive admin dashboards, and multi-role user interfaces.
- Ensured high accessibility standards and consistent performance across a diverse user base with varying device capabilities.

Dryklin & NXG Job Hub — Dual-Dashboard Systems

- Engineered role-based dual dashboards for both employer and job-seeker portals, enabling granular access control and tailored user experiences.
- Built a comprehensive admin dashboard for multi-location dry-cleaning operations, streamlining order tracking, staff management, and reporting.

Lynotech — Corporate Website

- Delivered a fully responsive, brand-consistent company website that measurably improved client engagement and digital brand visibility.

EDUCATION

B.Eng (Hons), Metallurgical Engineering

University of Ilorin, Nigeria • *Graduated December 2022*

CERTIFICATIONS & CONTINUOUS LEARNING

- The Complete JavaScript Course — Udemy
- HTML & CSS Certification — freeCodeCamp
- Ongoing: Advanced React Patterns, UI/UX Design Systems, and Modern Frontend Architecture

KEY HIGHLIGHTS

- 5+ years delivering production-grade responsive web applications and dashboards across multiple industries.
- Strong design-to-code expertise — highly proficient in Figma, Photoshop, and Illustrator for seamless handoff.
- Experienced in both startup and enterprise environments; comfortable owning features end-to-end.
- Excellent remote and cross-timezone collaboration skills with international and distributed teams.
